Cleanse + Scrub + Mask + Moisturize + Luxuriate

Notice how, in the past, the wearing of white gloves for ladies was de rigueur? It's to keep lusciously soft hands lusciously soft, away from pollution, the sun, and creepy men. Join hands (pun intended) as an Apricot Kernel Scrub containing essential Tea Tree oil and apricot kernels will be used to lightly exfoliate your hands, leaving them smooth as a baby's bottom. Nourish them next with a Mint Mask wrap, containing essential oils of peppermint and eucalyptus to excite your senses and improve blood circulation. Finish off with a Hand Cream of essential oils and a UV sun-filter to protect your hands from premature ageing. Keep up with the times, spa therapy is the new fashion statement.

Feet serve only one purpose: To showcase your thousand-dollar(s) Louboutins as you caper around town, shopping in tow on a guy's arm. What better way to provide the perfect platform for those killer heels than to indulge in a Potpourri Aqua Soak guaranteed to refresh and soften your dry, callused skin, followed by a Potpourri Sea Salt Scrub that will leave your skin silky smooth. A Mint Mask containing essential oils of peppermint and eucalyptus is next slathered on to excite your senses and improve blood circulation, and a Heel Balm and Body Butter is finally massaged into your feet to lavish them with moisturizing goodness. Step out in supreme style and sashay in those mind-blowing heels.

Scrub + Mask + Cream

You are a tree hugger. You grow carrots in your certified organic backyard, using only the purest water from PUB, NEWater. Rejoice, because a truly organic spa treatment is now available. A Sugar Scrub gently exfoliates your hands, restoring them to their pristine pre-bark state. Slather on a Moisture Mask that rejuvenates cell production and refines texture as it smoothes, conditions and heals, and finally a Massage Cream helps purify and soothe, leaving your hands exceptionally silky and smooth. Your handshakes are now Certified Organic.
